

AEU-6000

Preferred Implant/Surgery Motor

"I have really enjoyed my Aseptico AEU-6000. It meets all my surgery needs, from placing implants to removing full bony impacted wisdom teeth.

I have found that this unit has more features and better torque than my old W&H... Ever since using the Aseptico product my W&H hasn't seen the light of day."

- Heath Snell, DDS, AEU-6000 Implant/Endo/Surgery Motor

Best-Selling Implant Motor

The AEU-6000 is quickly becoming the **best-selling implant motor** on the market because of its reliability and affordability. The AEU-6000, coupled with the 20:1 Mont Blanc handpiece, gives its operator the freedom to **use any implant system available** on the market today.

This versatile machine performs standard or mini implants, third molar extractions, and even endo (*with auto-stop-reverse*). No other machine can give you all these benefits at such an **affordable price**.

With **upgradeable software** this unit will be a workhorse for many years to come. Autoclavable irrigation tubing means you don't have to buy tubing for every procedure. **Five preset buttons** can be programmed separately for both implants and endodontics, reducing your procedure time dramatically.

Speed Ranges	
20:1	15 - 2,000 rpm
8:1	38 - 5,000 rpm 38 - 1,300 rpm if Endo ASR active
1:1	1,000 - 40,000 rpm 300 - 10,000 rpm if Endo ASR active
1:2	2,000 - 80,000 rpm
1:5	5,000 - 200,000 rpm

Ideal for ALL traditional and mini implants.

Options
