

Exceed Expectations. Now.

Are you missing out on earning potential? When it comes to operational costs, what you cannot see can hurt your business. If you still only produce traditional dentures, chances are you are operating with a blind spot on expenses. The true cost of producing conventional dentures vs. digital is *opportunity*.

Digital dentures mean less back and forth. More production.

With an accurate workflow, faster turnaround, and reproducible dentures, your lab can deliver higher quality dentures in less time.

On average, labs that produce digital dentures:

- Increase production by **333%***.
- Spend **4.25 hours less** than conventional denture methods (per set of dentures).

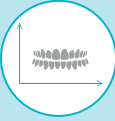

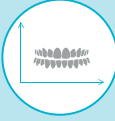

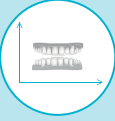

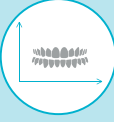

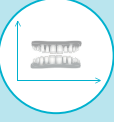

Don't leave money on the table. Clinicians are increasingly recommending digital dentures to their patients and are seeking qualified labs. Becoming a **Baltic Denture System[®] (BDS)** provider is easier than you think. You choose your entry, your way¹.

*Based on a lab producing 1 denture per day using the traditional method.

¹Refer to back page for tiers of entry

Exceed your production. Exceed your business goals. Exceed your clinician's expectations. Now.
