

2020 Mini Implant Courses

Continuing Education Credits: 7

Tuition: \$295

Increase case acceptance and boost your practice revenue.

Get more “Yes” on a mini-implant, tissue supported overdenture option. Mini implants are half the cost of traditional, implant-retained overdentures, yet few are aware of this benefit. Learn how to enlighten patients on the affordability, desirability, and ability of this treatment option to improve their quality of life.

These upcoming CE-credited, mini implant courses in 2020 will provide you the practical insights to boost your practice. Learn more or register at sterngold.com/courses.
